

Ladies and Gentlemen,

My name is Christopher Ostanówko. I am a beginner author of films. I am also the founder of the association "All Poland is Signing" which promotes learning of Polish Sign Language and tells about Deaf Culture.

I want to take part in the competition "**One of the 7 billion.**" I want to get involved Deaf people from different parts of the world for this project. Details of the contest are here: <http://www.7billionactions.org>

Now it's time for my request:
I'm looking for people who may record on the camera (can be also a mobile phone) in their language just one sentence.

" There are 7 billion people in the world. All equal, each unique "

I want to put together this in a one movie

If you have an ability please ask yours hearing friends to say this sentence to the camera.

Any person who is a record is requested to send the video to my email address
k.ostanowko@gmail.com

I ask each email included an information:

"I (Your Name) of (your country) give permission for free use of my image to the Christopher Ostanówko movie in the competition" One of the 7 billion. "

Thank you very much for your help ☺
Videos please send to **20 January** 2012.

Here is my page of films:
